

Public Utilities Department - Engineering and Project Management Division

FACT SHEET FOR:

Project Name:	Oil Well Road Force Main Improvements
Contract #	14-6213 - Underground Utility Contractors
Project Manager Name:	Wayne Karlovich
Project Number(s):	70103.8.1

General Information

The plans and specifications are intended to provide the information by which prospective contractors may understand the requirements of Collier County relative to installing piping, valves, fittings, appurtenances and other items associated with project.

Prior to providing a quote, Contractor shall inspect the site and work area to review the site conditions and constraints that may affect the work.

Project Description

This project consists of the installation of approximately 3,700 linear feet of 8-inch, 10-inch and 12-inch wastewater force main along Oil Well Road, Naples, FL 34120.

Scope of Work:

Install all wastewater force main components as required by the plans and specifications.

Collier County will pre-purchase all piping and valves from Ferguson for use by the successful bidder. A list of County-supplied materials will be distributed with the bidding documents or in an addendum. Contractor shall coordinate with County's supplier to finalize the list of materials required for the project. Coordinate with Project Manager and Supplier for any additional materials.

Pricing:

The contractor shall offer a proposal for the complete project based on prices listed on the bid schedule.
